

Section 4: Water for Construction

- A. When water is requested for construction purposes, or for filling swimming pools, tanks or other such uses, an application therefor shall be made to the District, in writing, upon application provided for that purpose in the District's office, giving a statement of the approximate volume of water required, or the size of the swimming pool or tank to be filled, etc. Payment for the water for construction may be required in advance at the scheduled rates. Water for construction shall be drawn from hydrants pursuant to the procedure set forth in Section 5, whenever feasible. No connection with the service pipe at the curb shall be made without special permission from the District. In no case, will any employee of the District turn on water for construction work or other uses unless the contractor first presents a permit.
